Research Interest

Computational Neuroscience, Cognitive Neuroscience, Machine Learning, Time-Series Analysis, Human-Computer Interaction (HCI), Data Science.

Education

MSc. Computer Science – Shahid Rajaee University (SRU)

2017–2021

Major: Artificial Intelligence

Thesis Title: “Designing of an Interactive Intelligent Software for English Learning Based on Learners’ Cognitive Style with Cognitive Equipment”

Supervisor: Prof. Reza Ebrahimpour, Dr. Ehsan Pazouki

Notable Courses: Machine Learning, Data Science, Artificial Neural Networks, Multi Agents Systems

Skills: Course Machine Learning, Data Science, Scientific Writing

BSc. Computer Science – Isfahan University

2011–2016

Thesis Title: “Designing Android Software Using Data Driven Model”

Supervisor: Dr. Bahman Zamani

Skills: Programming Languages (C++, Java, JavaFX), Software Engineering

Professional Experience

Teaching Assistant – Neuromatch Academy

Summer 2024

Teaching Assistant during NeuroAI – 2024, with a duration of 85 hours.

University Lecturer – Shahid Rajaee University

Spring 2023

Department of Computer Engineering

Teaching Experience:

- Design and Analysis of Algorithms
- Fundamentals of Computer and Programming

Research Assistant – Cognitive Science Lab, Shahid Rajaee University 2017–2023

- Participated in a team-based study focused on education and cognitive styles.
- Assisted in Prof. Reza Ebrahimipour's lab, examining individual differences in cognitive and learning styles through software interaction.
- Customized content based on cognitive styles to reduce cognitive load during learning.
- Developed Java software for reading comprehension, analyzing mouse movements and eye gazing.
- Created personalized content based on cognitive style identification.
- Completed a final project involving EEG and Eye Data collection with 3 master students.

English Language Teacher – Iran National Language Institution, Isfahan 2014–2016
Part-time position

Publications

Published

- Masoomeh Moatari, Ehsan Pazouki, Reza Ebrahimipour, Mohammad Reza Rezaee. (January 2023). "Intelligent learners' cognitive style detection based on their interaction in the English language teaching system." *Technology of Education Journal (TEJ)*.
<https://doi.org/10.22061/tej.2023.8895.2749>
- "Investigating the correlation between eye movements and reading strategies while reading English passage within an electronic environment." The 13th National Conference on Education–Tehran.
<https://civilica.com/doc/1411084>

Submitted

- Masoomeh Moatari, Ehsan Pazouki, Reza Ebrahimipour. "E-Learning Personalization Based On Automatic learners' Cognitive Style Detection." *Computers Education*.

Certifications

Coursera – IBM

- Introduction to Data Analytics (March 2023)
- What is Data Science (June 2023)

Institute for Research in Fundamental Science (IPM)

- Machine Learning with Python (July 2023)
- Introduction to Python (July 2023)

EdX – Harvard

- Data Analysis School (July 2023)

Skill Highlights

Language: Persian (native), English
Programming: Python, Java, Matlab, C++
Database: SQL, MS Excel, MongoDB
Editing: LaTeX, NoOffice, PDF
Web Design: JS, HTML, CSS

Honors & Awards

- Scholarship awarded by the Cognitive Sciences and Technologies Council of Iran for exhibition of technical and specialized achievements in the field of cognitive sciences (Jan 2023)
- MSc scholarship awarded by CSTC for cognitive sciences exhibition (Sep 2017)
- Ranked 2nd in Cognitive Startup Weekend Events (Issued by CSTC)
- Ranked 2nd in Isfahan Startup Weekend Events (Issued by Entrepreneurship Center, Isfahan University – Nov 2015, Sep 2017)
